

## Call for Bids

**Name of Project:** Documentation for “Secure ILIAS”  
**Deadline for Bids:** 2019-03-31  
**Hand in Bids to:** Matthias Kunkel, ILIAS e.V., info@ilias.de

Dear All,

the Technical Board of the ILIAS society hereby calls for bids for the aforementioned project.

In its “Strategy 2017”<sup>1</sup> the TB states, that “Documentation on secure configuration of ILIAS within common scenarios offers guidance to the community.“. Currently, the installation instructions<sup>2</sup> contain a section on “Hardening and Security Guidance”. These instructions should be split out into a dedicated and thus more visible document and also should be expanded to contain more advice on the topic.

Details of the project are outlined on the next page. Please hand in your bids and a corresponding statement of work by email according to the information in the header.

Bids will be judged by the offered price and the details outlined in the statement of work. We are looking forward to your submissions.

Best regards,

Matthias Kunkel

on behalf of the Technical Board of the ILIAS society

## Project Details

- Name of Project:** Documentation for “Secure ILIAS”
- Latest date of delivery:** 2019-06-30
- Goals and Benchmarks:**
- The ILIAS-community publicly and visibly provides documentation on how to securely operate an ILIAS-installation in common scenarios.
  - The documentation covers the server installation and configuration as well as the installation and configuration of ILIAS itself. The documentation must not contain any detailed information with respect to the role based permission system of ILIAS.
  - The documentation gives concrete instructions and also explains the rational of them.
- Deliverables:**
- A pull request to the ILIAS-Repository on GitHub that adds the new documentation as docs/configuration/secure.md in markdown format, removes the according paragraphs in docs/configuration/install.md and links to the new file.
  - A public workshop of 2h via Skype to publicize, discuss and hone the new documentation in the PR.
  - Incorporating the feedback from the workshop into the documents provided in the PR.
- General Conditions:**
- The PR and workshop should respect rules and procedures of the ILIAS-community.
